

Le **plafoniere** per esterni in materiale termoplastico sono disponibili in un'ampia gamma che comprende apparecchi di misure differenti, con LED ad alta efficienza e risparmio energetico e per lampade alogene e fluorescenti compatte. Sono ideali per applicazioni in ambienti residenziali e condominiali, sia per interni che per esterni. Elevato grado di protezione alla penetrazione di acqua e polveri IP65/66. Alta resistenza agli impatti meccanici esterni. Le plafoniere 295, 295P, 295T e 295TP sono modelli di design depositato.

- Corpo in nylon F.V. 30%
Diffusore in policarbonato
Stampati ad iniezione

- Indice di resa cromatica: Ra > 85 (per versioni LED)
Tensione di alimentazione: elettronica 230/240V – 50/60Hz; elettromagnetica 230V – 50Hz

The outdoor **ceiling luminaires** in thermoplastic material are available in a wide range of versions in different sizes, with high efficiency and energy saving LED sources as well as for halogen and compact fluorescent lamps. They are ideal for application in residential areas for both indoor and outdoor use. High protection rating against water and dust penetration IP65/66.

High resistance against mechanical shocks.

The 295, 295P, 295T and 295TP ceiling luminaires are registered design models.

- Body in nylon F.G. 30%
Polycarbonate diffuser
Injection molded

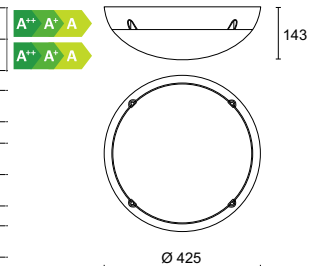

- Colour rendering index : Ra > 85 (for LED versions)
Supply voltage: electronic 230/240V – 50/60Hz; electromagnetic 230V – 50Hz
