

Sistema di illuminazione multidirezionale per lampade alogene 12V, caratterizzato da più fonti luminose orientabili e indipendenti fra loro. Questa flessibilità dell'orientamento consente di modulare la luce, in modo da rendere omogeneo il contesto generale e nello stesso tempo esaltarne i dettagli.

**Kardan** è ideale per ambienti espositivi e ovunque siano richieste luci d'accento, come vetrine, musei, gallerie d'arte. Facilmente integrabile in ogni tipologia di arredo grazie alle sue linee essenziali e discrete.

Disponibili anche versioni da superficie per parete (vedi pag. 124)

Trasformatori elettronici, da ordinare separatamente.

A multi-directional lighting system for 12V halogen lamps, that is characterized by adjustable and independent multiple light sources. This flexibility in orientation allows to modulate light, granting an effect of uniform lighting whilst enhancing details at the same time.

**Kardan** is ideal for display areas and wherever accent lighting is required, such as shop windows, museums and art galleries.

Its clean and essential design makes it suitable for any type of interior.

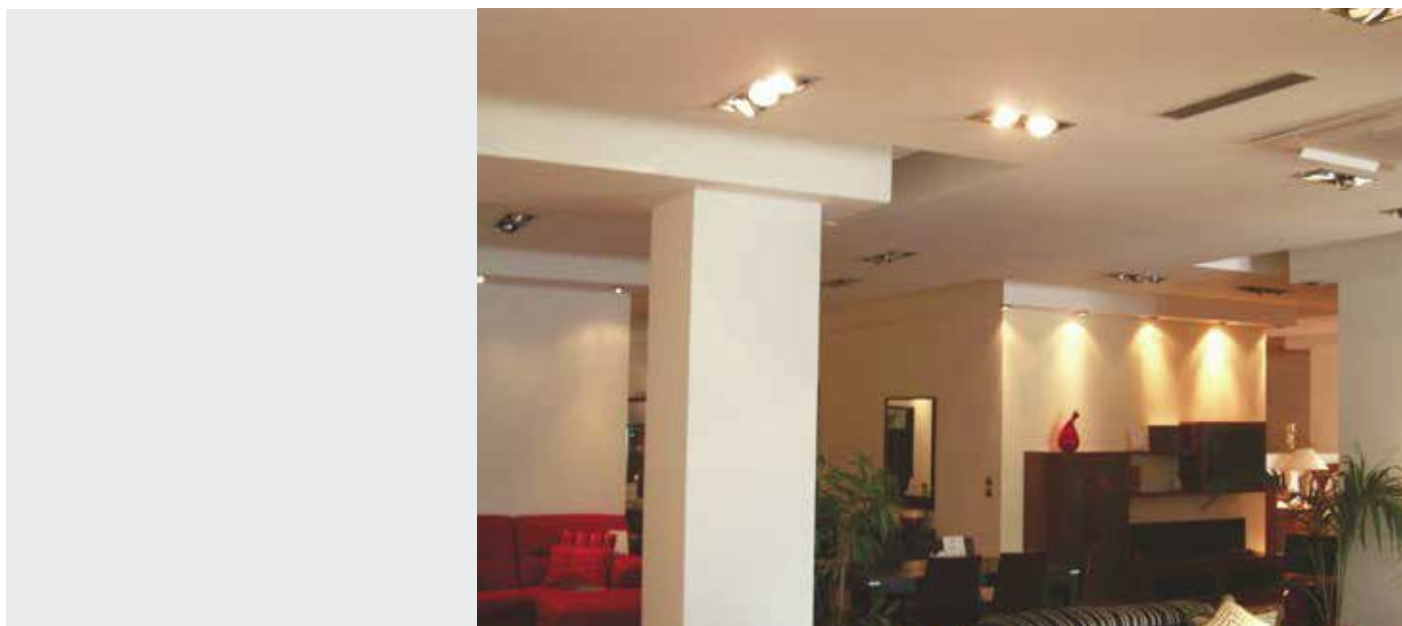

Wall-mounted versions are available (see page 124)

Electronic transformers should be ordered separately.

■ Cornice di finitura in pressofusione di alluminio  
Cassa interna in acciaio verniciato nero  
Anello e ghiera reggilampada in pressofusione di alluminio verniciato

■ Decorative frame in die-cast aluminium  
Inner body in black painted steel  
Ring and lamp bezel in painted die-cast aluminium
